1 Challenge

What do we solve, for whom and why is it relevant both now and in the future?

WHAT?

What is the challenge ?

Re-design the way to... / Create a way to...

WHO?

Who is the primary target group?

Primarily aimed at...

...and then towards..

WHY?

What concrete facts underpin the challenge?

Because right now...

...and in the future...

5 Current situation

We're here!

What knowledge do we already have about the challenge?

What assumptions do we have about the challenge?

Which relevant knowledge professionals do we have access to?

2 Goal for the solution

Where should our solution take us?

What level of innovation do we want? And what do we agree to?

What are the specific objectives or milestones we have?

What gains will we realize with our solution?

6 Knowledge gap

What areas of knowledge do we lack in the team to fulfil our vision?

3 The design vision

Write challenge and ambition together into a short, inspiring text that is understandable in itself.
